Investor Relations Program

At Vitarich, we seek opportunities to engage with stakeholders and improve their understanding of our company. We believe a proactive approach will help diversify our shareholder base, maximize investor demand, and maintain ready access to the capital markets over time. This view guides our investor relations (IR) program to strive for clear, open, and accurate communication with our stakeholders and pursue a wide range of activities, including:

- regulatory filings and continuous disclosures of structured, unstructured, and governance and sustainability reports
- investor engagement
- research and feedback

Our channels of communication are the following:

- the disclosure facility of the Philippine Stock Exchange,
- Annual General Meeting of the stockholders,
- company website and social media,
- press releases,
- one-on-one and group meetings,
- roadshows,
- e-mail,
- telephone and video calls
